

# The Concept of Cybercrime and Online Threats Analysis

**Filippo PARODI**

University of Genoa, Italy  
filyppo.parodi@yahoo.com

## **Abstract**

*More and more persons are exploiting the speed, convenience and anonymity that modern software offers in order to commit a diverse range of criminal activities. This paper analyses the modern concept of cybercrime, cyberespionage and cyberweapons and the online IT threats.*

**Index terms:** cybercrime, cyberespionage, cyberweapons, online threats
