

CyberSecurity Day 2014 Conference Review

Ioan-Cosmin MIHAI

Vice President of RAISA - Romanian Association for Information Security Assurance

Cybersecurity Day Conference was organized by UTI with Evensys on October 29, 2014. This event was included in the series of ENISA conferences held during European Cybersecurity month. RAISA - Romanian Association for Information Security Assurance was present at this event by professor Ioan BACIVAROV - President of RAISA and assistant professor Ioan-Cosmin MIHAI - Vicepresident of RAISA.

Developed in the context of the spectacular growth of cybercrime, the conference brought together experts in computer security from some important national and international companies - EY, KPMG, IBM, HP Security, Symantec, Cisco, FireEye, BAE Systems Applied Intelligence, Microsoft, UTI and certSIGN - and the representative professors from university environment.

Conference CyberSecurity Day 2014

The government sector was represented by
